J38500-2 Pro-Link Cartridge, Volvo 2.1 Version

W0001378

A new cartridge used with Pro-Link 9000 (J-38500) has been introduced to replace the current cartridge, J-38500-1000. Order number for the new cartridge is: J-38500-2000.

This essential tool was shipped out at the end of October, 1996. The updated program covers the VE D12, Data Concentrator, 1996 VN-series Instrument Cluster and the SRS Air Bag information.

The new cartridge cover is black, this prevents confusing it with the current grey cartridge cover.
