VN, VHD VERSION2 Binder Set

(Effective from October 2002)

Starting on build date 11.2002, new VN and VHD vehicles are released and referred to as VERSION2. VERSION2 is the reference found throughout Volvo Service Literature and in VCADS Pro applications.

Along with the release of the new VN, VHD VERSION2 vehicles a new Service Information binder set is introduced. The set includes all service information relevant to the new vehicles. Refer to the new binder set for any service requirements for the newer vehicles. The older TSI and VN, VHD binder sets are closed and will be altered only upon need. Refer to the two previous binder sets for service requirements for all older vehicles.
